MISSION STATEMENT

To support everyone who cares about waste diversion with leading edge products and services that maximize the quantity and quality of their recycling program.

A MESSAGE FROM CRAIG BUSCH

Busch Systems has been passionately delivering recycling and waste solutions for over 30 years! And we keep expanding!

Today, as the movement towards zero waste becomes ever more prominent, we see our customers seeking new ways to advance and expand their sustainability programs.

It's our pleasure to help these programs evolve by constantly striving to achieve higher standards. We do this by providing customized, efficient and innovative products, our ground-breaking collection analytics software, the Resource Center, and new in 2018 – our consulting services.

We are strongly committed to our own sustainability efforts at our headquarters, warehouses and manufacturing facilities and we're equally committed to our philanthropic efforts. We continue to support local,

national and international non-profit organizations which focus on environmental, health and children's issues. This year we introduced Project Rise, our environmental "Give Back" program and we continue to see the successful growth of this initiative.

Thank you for your loyalty and being a part of the Busch Systems family for over 30 years!

Craig Busch
