**FOR IMMEDIATE RELEASE**

**March 29, 2005**

### BUSCH SYSTEMS LAUNCHES NEW DESKSIDE RECYCLING CONTAINER – THE DUAL DESKSLIDER

The Dual Deskslider is the latest addition to the Busch Systems Office Recycling Container Line. With its unique dual collection design, the Dual Deskslider promotes improved separation of recyclables and waste. The easy to empty lid comes with a built-in waste receptacle, which enables simultaneous collection and recovery of paper for recycling or reuse. The Dual Deskslider is lightweight, easy to move with the handle system and sits neatly next to desks and workspaces. The lid and two sides of this bin can be custom stamped for educational and advertising purposes. Enhance any office recycling program by incorporating the Dual Deskslider as a key deskside container working to reduce waste and improve paper recovery rates.

Busch Systems specializes in providing recycling container solutions to a wide range of industries from municipal governments to educational systems. Over the last 20 years we have established ourselves not only as manufacturers of more than 170 products, but also as solution providers to varying programs focused on waste reduction through recycling and composting.

Our product line includes everything from Curbside Bins and Office Recycling to Document Destruction Carts & Consoles and Centralized Recycling Containers. We also offer a full line of Composting Containers, Promotional Items and Educational Tools. Contact us for more information at 1-800-565-9931 or visit us online at [www.buschsystems.com](http://www.buschsystems.com).
