WALL BRACKETS NOW HOLD 9 GALLON CONTAINERS AND PERSONAL DOCUMENT CONTAINERS FROM BUSCH SYSTEMS

The new Wall Brackets from Busch Systems International Inc. have been redesigned to be more modular and durable while remaining as an innovative space saving device for recycling containers. Space is a commodity in any office environment, home and high traffic area. Originally designed for curbside bins, the Wall Brackets enable easy collection of recyclables, waste and documents for security and destruction purposes while keeping the container out of the way and at an accessible reaching distance. With the Wall Brackets mounted exactly 14 inches apart, they can now securely hold the 9 Gallon Container and Personal Document Container (PDC) from Busch Systems. The Wall Brackets can be quickly and easily installed with just two screws fastened into a stud. The container lip rests over the top of the Wall Brackets and is convenient to lift off while remaining stable during collection.

The Personal Document Container, also known as the PDC, was initially designed for office use. This 9 Gallon container is ideal for more centralized areas like next to the photocopier or fax machine for disposal of confidential documents. The sturdy lid makes tampering nearly impossible, yet it is easy to unlock and empty when full.

Busch Systems specializes in providing recycling container solutions to a wide range of industries from municipal governments to educational systems. Over the last 20 years we have established ourselves not only as manufacturers of more than 170 products, but also as solution providers to varying programs focused on waste reduction through recycling and composting. Our product line includes everything from Curbside Bins and Office Recycling to Document Destruction Carts & Consoles and Centralized Recycling Containers. We also offer a full line of Composting Containers, Promotional Items and Educational Tools. Contact us for more information at 1-800-565-9931 or visit us online at www.buschsystems.com.

A) Mount Wall Brackets 14" apart on the wall/surface B) Hang PDC / 9 Gallon Container lip over Wall Brackets
