

The 24 Gallon Curbside Recycling Bin

The 24 Gallon Curbside is designed to be the most durable container available. Curbside containers have certain impact and stress points, primarily the handle and both the top and bottom edges and corners. Uninterrupted drainage retention canals hold a minimum of 8 ounces of liquid before draining. The 24 Gallon Curbside containers incorporate “strategically integrated reinforcements” which are areas of increased wall thickness at the bottom and handle impact points. This makes the curbside series the longest lasting containers at the curb. Available with lid, bungee application, wheel package and wall brackets.

Features:

- Cross stacks
- Extra handle ribbing
- Four handles
- High nesting ratio

MADE WITH A MINIMUM
35% RECYCLED CONTENT

Bungee application

Wall mount allows for easy storage

Optional wheel kit
