Today's Panelists

McKell Nelson

Sustainability Events Coordinator Salt Palace Conv. Center

Salt Lake City, UT

Jana Brooks

Manager, Event & **Tenant Services**

MD Stadium Authority

Baltimore, MD

Amy Dunn General Manager **AEG Presents** Seattle, WA

Lindsay Arell Principal, Honeycomb Strategies Denver, CO

Alec Cooley Senior Advisor **Busch Systems** Charleston, SC

Let's Recycle Better, Together.

Agenda

Pt 1: Case Study Presentations

- McKell Nelson Salt Palace Convention Center
- Jana Brooks Baltimore Orioles & Ravens stadiums
- Amy Dunn Showbox
- Lindsay Arell Red Rocks Amphitheater
- Alec Cooley Best practices for bin infrastructure

Pt 2: Panel Discussion

Salt Palace Convention Center Salt Lake City, Utah

A SALT LAKE COUNTY FACILITY

The Key to the Salt Palace's Sustainability Success....

PARTNERSHIP

Recycling Efforts

Landfill Diversion Rate:

- 2017: 40% (by weight)
- 2018: 64% (by volume)
- 2019: 65% (by volume)
- 2020: 47% (by volume)

Materials Recycled:

- Cardboard/Paper
- Glass
- Metal
- Wood (Pallets)
- Green & Food Waste
- Mixed (e.g. plastic bottles and jugs, aluminum cans)

Live Poll #1

What activities are you currently doing? (check all that apply)

- Recycling Front of house
- Collect food organics Front of house
- Collect food organics Back of house
- Food recovery for crises centers, etc.
- Engage attendees (i.e. Green Teams, PSA's, etc.)

Busch Systems presents **"Taking Venue Recycling & Waste Reduction to The Next Level":** Camden Yards Sports Complex Sustainability Initiatives

Jana N. Brooks, CVP Manager, Event and Tenant Services

Who We Are

- The *Maryland Stadium Authority*, established in 1986, to operate and maintain **Oriole Park at Camden Yards**, built in 1992
- M&T Bank Stadium was added to the Complex in 1998
- **B&O Warehouse** built in 1899; the longest brick building on the East Coast at 1,116 feet long x 53 feet wide totaling 430,000 square feet
- **Camden Station** originally constructed in 1857; formally housed Geppi's Entertainment Museum and the Sports Legends Museum
- Camden Yards Sports Complex is 85 acres in its entirety

<u>Camden Yards Sports Complex</u>

LEED Certification

- M&T Bank Stadium 1st existing outdoor professional sports facility in the United States – including all NFL and MLB stadiums – to receive USGBC's Gold rating (LEED EB O&M); achieved 2013/recertification 2018
- Achieved LEED Gold EB O&M for Oriole Park and LEED Silver EB O&M the Warehouse in April 2018
 Goal: First completely LEED certified complex with MLB and NFL stadiums

Culture Change and Growing Pains

Evaluation of the Process

Complex Recycling Rates

■ Complex ■ Oriole Park ■ M&T Bank

Enhancements

<u>Sustainable Improvements</u>

Oriole Park

- Low flow water fixtures resulted in 27% reduction in water use
- For remodeling projects, materials and construction waste were tracked (59% of the materials purchased for the stadium remodels were sustainable materials, 74% of the construction waste was recycled)
- Comprehensive green cleaning program results in 31% sustainable cleaning products

M&T Bank Stadium

- 43% water reduction with the installation of low flow fixtures
- Reduction of over 5 million kilowatt hours of electricity at the stadium annually, that can heat about 440 homes for a year
- 38% of M&T Bank Stadium staff use alternative transportation to work, contributing to the stadium's carbon footprint reduction of 123,070 metric tons of greenhouse gas emissions per year

Cigarette Butt Recycling

Since 2016, we have recycled almost 126,000 cigarette butts utilizing 9 receptacles along with post collections from the janitorial staff.

Live Poll #2

How would you rate your recycling / waste reduction program?

- Advanced achieving high diversion
- Solid, but some room to improve
- Decent, covering the basics
- Beginning stages
- N/A Doesn't apply

•Failed waste mitigation •Contaminated Increased cost on hauling •Landfill

•Waste audit •Reduce trash •Eliminate single-use plastic •Compostable service-ware •Aluminum cans WHERE DOES IT GO?

Your Food Scraps ... will become compost used to grow plants and vegetables!

RECYCLE

Your Recyclables ...

will become new items such as metal and glass containers, toilet paper, and fleece!

Branded water bottles for staff

CLIMATE POSITIVE TOURING

Live Poll #3

Do you regulate concession food / drink packaging?

- Yes, all or most packaging recyclable or compostable
- Still implementing toward full recyclability or compostability
- Select packaging items only
- No, but actively looking to
- Not a priority

Best Practices for Recycling & Waste Bins

- Homer Principle: Recycling isn't focus of people's attention
- Strategy: Overcome barriers to recycling
 - 1. Lack of convenience
 - 2. Confusion about what to do
- Bins must intuitively guide correct sorting

Color Distinction Between Collection Streams

Yes!

No!
