

PLEASE NOTE:

One connector kit (2 connectors) connects two bins together. For larger stations, additional connector kits will be required.

EACH KIT INCLUDES:

x2) Connectors

STEP-BY-STEP SETUP INSTRUCTIONS

- 1 Align Waste Watcher® containers so that they are parallel to each other with sides touching (FIG. 1)
- 2 Taking a connector with the tabs facing upwards, slide the connector up into the underside of the rim of the container until a snap is heard (FIG. 2)
Note: Each tab will make a snap sound once properly connected through the body
- 3 Repeat step 2 on the opposite side of container until 2 connectors are engaged for each set (FIG. 3)
- 4 Complete the station with lids, labels and sign frames as ordered

STEP-BY-STEP REMOVAL INSTRUCTIONS

- 1 Locate the connector tabs in the rim of the Waste Watcher® (FIG. 4)
- 2 Place a finger tip on one tab, pressing the tab towards the inside of the Waste Watcher® (FIG. 5)
- 3 Repeat step 2 for last tab connected and any additional connectors attached
