

A photograph of a tall, rectangular, metallic-looking device, possibly a water purifier or filtration unit, with a square opening at the top. The device is positioned in the lower-left quadrant of the frame. The background is a dark, blue-toned interior with a window showing a blurred outdoor scene. A prominent white diagonal line runs from the top-left corner towards the bottom-right, bisecting the image. The overall aesthetic is modern and minimalist.

Aristata[™]
Series

VERSION 2.3

is

RECYCLING HAS NEVER LOOKED *so beautiful*

The Aristata™ Series is a departure from what you may think a recycling and waste container can look like. Busch Systems has been delivering recycling and waste solutions for over 30 years and has been a trusted source for containers that are durable, functional and practical to clients around the globe.

Our dedicated design team spent countless hours formulating the look and feel of the stunning Aristata™ Series. Each finish is meticulously crafted to be on-trend with today's modern interiors, creating recycling and waste containers that blend seamlessly into any space.

// We are still getting comments on how sleek and nice the Aristata looks in our building. Who knew a trash can could be a conversation piece! //

– Ashley, Mechanical Engineer Corporate Office in California

Liners are made from 100% post-consumer recycled content
