SYSTEMS

2018 RECYCLING & WASTE CONTAINERS

A MESSAGE FROM CRAIG BUSCH

The recycling industry has come a long way since Busch Systems began in the early 1980's and oh, what a ride it has been!

Today, as the movement towards zero waste becomes ever more prominent, we see our customers seeking new ways to advance and expand their sustainability programs.

It's our pleasure to help these programs evolve by constantly striving to achieve higher standards. We do this by providing customized, efficient and innovative products which include not just container solutions, but also the recently launched, ground-breaking collection analytics software, the Busch Systems Resource Center.

At our headquarters, warehouses and manufacturing facilities, we are committed more than ever to our own sustainability efforts and look forward to sharing our 2018 accomplishments. We are equally committed to our philanthropic efforts and continue to support local, national and international non-profit organizations which focus on environmental, health and children's issues.

Thank you for your loyalty and being a part of the Busch Systems family for over 32 years, we look forward to working with you again soon!

Craig Busch

Founder, President & Chief Design Officer

OUR VISION

Great people, working together
to create positive change in the world.

TAILORED *by you*

Customization offers you the ability to retain your brand's identity and enhances the trust of your product or service. Busch Systems understands the importance of having an identifiable brand, which is why our in-house graphic designers help turn your concept into a reality. Turning your vision into something tangible is true customization - uniquely offered by Busch Systems.

By using customized colours, openings, icons and verbiage that is tailored to your program and intuitive for the user, it is less likely streams will be contaminated. More standardization allows for more efficient collection and better diversion rates. Not only does customization create a cosmetic flow between your brand and your recycling program, but it is a direct link to your Corporate Social Responsibility.

Leveraging true customization can solidify your company's brand as the gold standard in your industry.

CUSTOMIZE YOUR STATION

Consistency is key; the ability to alter your program to keep up with the demand of your evolving needs has never been so simple!

- 
1 Body
 - Select size, capacity, shape and colour
- 
2 Openings
 - Select from restrictive opening options and lid colours
- 
3 Graphics
 - Choose from an assortment of stock signs and labels or customize your own! Take it up a notch and get creative by adding more graphics to increase your brand's corporate exposure or to simply improve your diversion rate!
- 
4 Optional Accessories
 - Want to add signage to a container? Require the convenience of wheels? Sign frames? Wheel Dollies? Connectors? We have options for you!

DESIGNER

We believe that recycling and waste containers can be as beautiful as they are functional. The bins that are included in our Designer Collection make sustainability stylish. Clean lines in sophisticated finishes complement any space where practical still needs to be polished. With a multitude of additional options such as signage, sizes and openings, this striking group of containers is sure to have a place in any recycling and waste program.
