IN THE WORLD

# WHY BUSCH?

## Certified B Corporation®

We are proud to be a part of a global movement of people using business as a force for good™

With 40+ years'

## Experience

we know our stuff and love to share it!

## The Most Trusted

#1 rated recycling & waste container brand according to Trustpilot.

## Made in North America

Promise

We strive to maximize

## Recycled Content

in our containers!

We're proud to be a

## Living Wage Employer

## Tailored By You

Customization is our middle name!

## Giving Back

We support local and national charities.

## Plasticbank

Busch Systems is directly contributing to five of the 17 United Nations Sustainable Development Goals.

We track our

## Carbon Footprint

on every product via CarbonGraph.

In an effort to produce a more sustainable catalog with fewer pages, we have intentionally not included all of our products here. Contact our sales team at 1-800-565-9931 or check out our website to see our full product line!

Printed on 100% Recycled Paper. FSC® Certified.

## MISSION STATEMENT

To support everyone who cares about waste diversion with leading edge products and services that maximize the quantity and quality of their recycling program.

### A MESSAGE FROM CRAIG BUSCH

Progress has never been accidental. At Busch Systems, it's something we design for—intentionally, thoughtfully, and with a clear understanding of the impact our choices create. As we head into 2026, I'm more energized than ever by the role businesses can play in shaping stronger communities, smarter systems, and a more sustainable future.

I've always believed that good design does more than solve problems—it inspires better thinking. Whether we're creating waste diversion solutions, reimagining how products are made, or pushing ourselves to operate more responsibly, our goal is the same: to make it easier for people and organizations to do better. For us, sustainability isn't a claim; it's a commitment backed by transparency, data, and accountability.

That commitment continues to guide our actions. From advancing our Certified B Corporation® performance, to measuring and sharing the environmental footprint of our products through CarbonGraph, to supporting global plastic recovery initiatives with Plastic Bank, we

remain focused on turning intention into measurable results. Just as importantly, we continue to invest in education and dialogue—sharing insights, challenging norms, and helping move our industry forward through initiatives like our Green Thinking Webinar Series and Talkin' Trash.

Sustainability - environmental, social, and economic - requires a long-term view and the courage to lead differently. As innovators and problem-solvers, we're committed to building solutions that reflect that belief.

As we move into 2026, there's a lot that I'm excited to share but for now, know that 2026 represents another meaningful step forward. One that's driven by purpose, powered by design, and grounded in impact.

On behalf of everyone at Busch Systems®, thank you for being part of what we're building together.

*Craig Busch*

Founder, President & Chief Design Officer

### We're committed to doing business for the greater good—that's why we're proud to be a B Corp™.

A Certified B Corporation® since 2019, we're one of over 9,000 companies across 105 countries and 160 industries redefining success in business. "We're honored to be a part of the B Corp community," says Craig Busch, President & CEO. "It lets us be bold about who we are and what we believe in—and to make greater impact in the world as a recycling & waste management industry leader." B Corporations voluntarily meet high criteria for social and environmental performance, accountability and transparency. We have committed to using business as a force for good, assessing the work that we do and the way that we do it, and continually implementing processes and practices that consider the impact our business has on all stakeholders – employees, customers, society and the environment.

### CarbonGraph

#### Working together to make a difference! We are proud to have partnered with CarbonGraph.

Innovation is at the heart of what we do, and we are proud to have partnered with CarbonGraph, an innovative technology, to determine the carbon footprints of our products. Founded in 2021, CarbonGraph's mission is to provide people, companies and governments the environmental context needed to make informed decisions about the sustainability of the goods and services they buy and sell.

In addition to mapping the carbon footprint of our products, the Busch Systems team has been working hand-in-hand with the CarbonGraph team to develop their software and be an example of the steps other companies can take in measuring their environmental impact through data and technology.

To learn more about CarbonGraph, visit: [buschsystems.com/carbon-footprint](http://buschsystems.com/carbon-footprint)

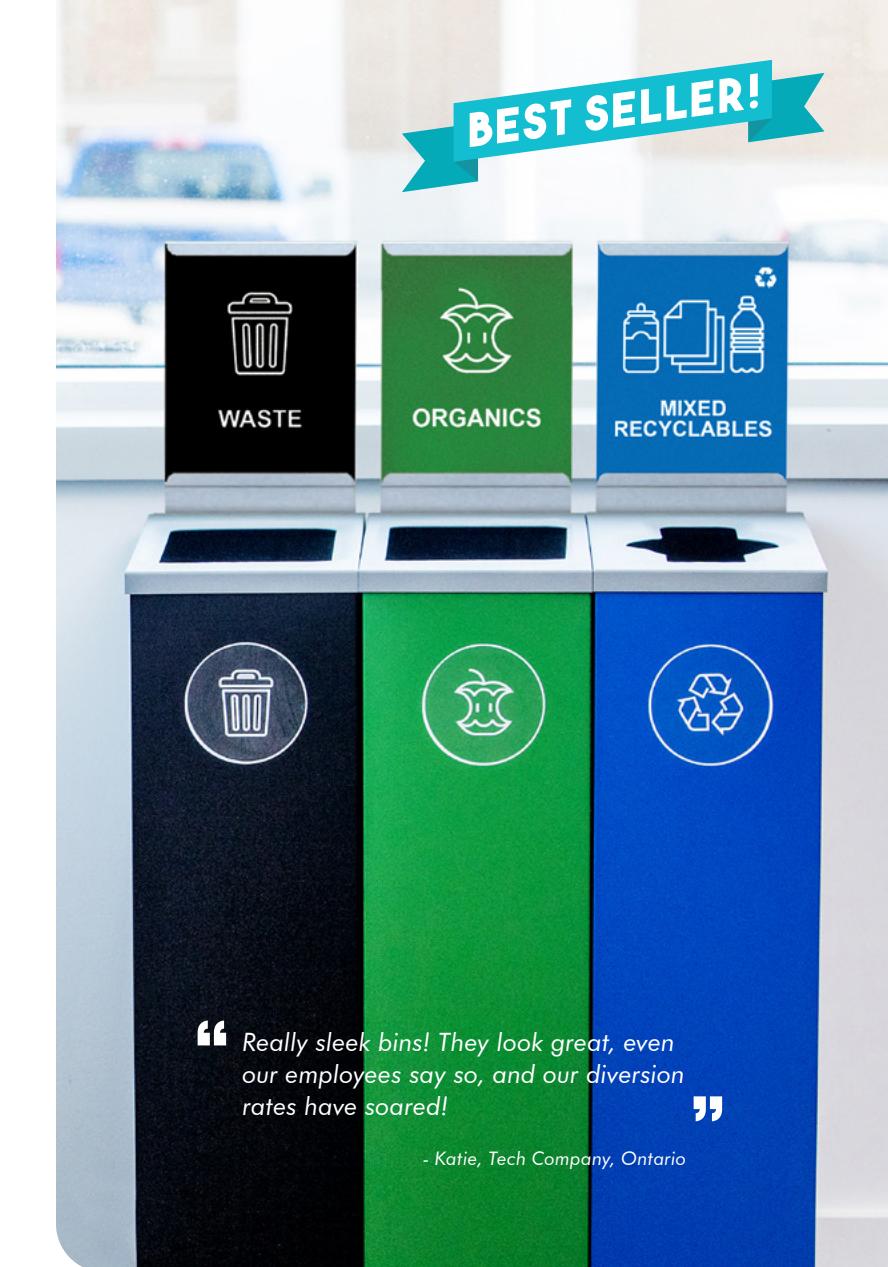

Plastic Bank empowers the Social Recycling movement that stops ocean plastic and helps alleviate poverty. Busch Systems is improving lives in ethical collection communities in collaboration with Plastic Bank and, in 2024, Busch Systems will help stop the equivalent of 3.1 million plastic bottles from entering the ocean in collaboration with Plastic Bank.

In partnership with Plastic Bank, Busch Systems is directly contributing to five of the 17 United Nations Sustainable Development Goals.  
(SDGs 1, 8, 12, 14, 17)

## RENEGADE™ SERIES

Big, beautiful  
and sustainable

This durable, high-capacity container is perfect for any outdoor environment. Made from 100% Post-Consumer Recycled Content with blow-molded construction, the Renegade is on the leading edge of circular-economy sustainability and quick & efficient manufacturing, allowing us to get this future-conscious product to you exactly when you need it.

- **HIGH-CAPACITY** - With a capacity of 189.25 liters you'll save time and money servicing this easy-to-maintain container.
- **ENVIRONMENTALLY CONSCIOUS** - Made from 100% PCR, the Renegade is produced with a smaller carbon footprint and is fully recyclable at the end of life.
- **PROTECTIVE RAIN HOOD** - The uniquely designed canopy lid keeps precipitation out of the container, leaving contents dry and protected.
